SUMMER Course Program

September 17 - 28, 2017
Yogyakarta Indonesia

Livestock - A Driving Force
for Food Security and
Sustainable Development

Introduction

Here at Universitas Gadjah Mada (UGM), Faculty of Animal Science, we proudly provide a unique and truly international summer experience. Our educational programs encourage intellectual exploration of the highest academic quality. This program provides you with the fantastic opportunity to increase your intercultural competence and expand your network of international friends and connections.

Universitas Gadjah Mada is one of the world's leading research institutions and the highest ranked university in Indonesia, while Faculty of Animal Science has been certified by ASEAN University Network – Quality Assurance (AUN-QA) and accredited A (Excellent) by National Higher Education. We offer you, students from Asia and Australia to participate in our Summer Course Program in the heart of Javanese culture – one of the safest, most comfortable and friendliest cities in Indonesia.

This Summer Course Program is the Program that offers you as international students who interested in animal science and agriculture, and working with the farmers. We provide a truly international experience in fantastic program, with English language and activity programs that ensure the students return home after a summer they will never forget. As with friendly Indonesian students during the academic year, international students attending summer program will enjoy a huge variety of experiences inside and outside the classroom, all shared with other students.

Program Description

01 | Indonesian Language and Culture

Our team of instructors will help you to learn Bahasa Indonesia and become familiar with the local blend of Indonesian multi-cultures in this short period of time, within a supportive framework.

02 | Exploring Yogyakarta (Javanese culture)

Our program offers a series of English-based lectures and field trips that allow you to explore specific environmental and socio-cultural aspects of Javanese, visit ancient culture environment such as Borobudur (the biggest Buddhism temple in the world, which was built in 9th century), and Prambanan temple, Hindu's temple, which was built in 7th century.

03 | Outdoor learning “Working with Community” (Livestock and Agricultural activities)

Field trips give you a direct understanding of rural livestock and agricultural activities of Javanese, while other trips are organized outside of Yogyakarta for an in-depth exploration of our diverse nation.

04 | Class room Lectures

Some theories and principles of Food Security and Sustainable Development are facilitated by Professors who are experts in this field. They are coming from Thailand, Malaysia, Vietnam, Philippines, and Indonesia.

05 | Student advisors

Each program offers a number of well-trained UGM students who can provide support for any problem you may encounter during your summer program.

Scholarship

Students coming from ASEAN countries are granted with limited numbers. 10 students will be selected for granting economy class international airfare round-trip ticket, accommodation in the hotel, and hospitality. The only extra money needed throughout your stay in Yogyakarta would be for meals and personal spending.

Non-Scholarship

We also receive the number of students who are granted by their institution/private with All-inclusive program fee (exclude international and domestic airfare): 350 USD/student. We offer a simple one-time payment for the entire of program expenses. The only extra money needed throughout your stay in Yogyakarta would be for meals and personal spending.
